1. Quality
2. Reliability

4. Honesty
5. Value for Money

Since opening with just 2 Directors in 2009 operating out of a rented loft space in South Birmingham, we have since grown into one of the region's biggest and most trusted brands with an annual turnover of over £17m in 2019. Our culture is one of hard work, persistence and passion.

Our internal attrition is unrivalled within our sector which gives our clients the benefit of being able to build a long term relationship with their consultant without having to start all over again once their consultant leaves to go to a different company. We reward hard work and success and ensure all of our employees have opportunities to develop their careers and reach their goals which is why we have some of the most talented and experienced consultants in the region.

We support all types of businesses, ranging from ad hoc support for SME's to onsite solutions for Blue Chip businesses and everything in-between. We are happy to provide written testimonials upon request.
